ERP FOR ZIMBABWE

# Your stock, accounts and payroll *in one connected system.*

CrownCore ERP brings the till, the books, purchasing, stock and Zimbabwe payroll together, with certified ZIMRA fiscalisation built in.

## Finance

USD and ZWG books, the cash book, banking, VAT working papers and financial statements.

## Sales & CRM

Leads, quotations, orders, invoices, deliveries and customer statements.

## Stock & buying

Stock by branch, transfers, import shipments, landed costs and backorders.

## Point of sale

An offline-capable till, barcode selling, vouchers, lay-by and shift reconciliation.

## People & payroll

PAYE, NSSA, NEC and ZIMDEF, Labour Act leave, attendance and self-service.

## Projects & assets

Projects and tasks, expense claims, company assets, customer and supplier portals.

## Built for how Zimbabwe works

- ZIMRA FDMS certified fiscalisation
- USD and ZWG in one set of books
- Pay in both currencies taxed as ZIMRA sets out
- A till that keeps selling when the connection drops
- Approvals, branch access and audit activity
- Hosted on your server or a private cloud

## How to start

1. **Understand.** A walkthrough of the workflows you need, with your locations and users.
2. **Prepare.** Company, branches, currencies, roles and opening data set up with you.
3. **Validate.** Your team tries the real workflows before anything goes live.
4. **Go live.** Fiscal devices registered with ZIMRA, payroll signed off, support in place.
